Important Message about 2025 ONLINE NAPLAN

The National Assessment Program – Literacy and Numeracy NAPLAN will be conducted for all students in Years 3, 5, 7 and 9 in all government and non-government schools, will be conducted in March 2025. This program, which will run in all States and Territories of Australia, will assess literacy and numeracy skills of all students. The Australian Curriculum, Assessment and Reporting Authority (ACARA) has moved NAPLAN online, this allow students to complete NAPLAN tests using an electronic device. Over 100 schools in Western Australia as well as schools across Australia will participate in NAPLAN Online.

The NAPLAN will provide an important measure of how students are performing in the area of reading, writing, spelling and numeracy. It allows you to:

- Compare your child’s progress in relation to the benchmark
- Compare your child’s achievement with other students, as well as the performance of all schools in Australia. For more information please refer: <http://www.myschool.com.au>
- See how your child’s development in literacy and numeracy compares to achievement normally associated with the relevant years of schooling

Read a description of the skills associated with your child’s achievement on four assessments (Reading, Writing, Spelling and Numeracy)

North Shore Coaching College is delighted to be the first coaching college in Australia and Hong Kong to launch NAPLAN Online adaptive testing platform

To provide our students with some familiarity as well as practices with the online NAPLAN exam North Shore will be offering a comprehensive and adaptive NAPLAN Online mock test to all Year 3, 5, 7 and 9 students in WA.

Join our **NAPLAN Online mock test** where students in Year 3, 5, 7 and 9 will complete NAPLAN Online adaptive tests in Writing, Reading, Conventions of Language and Numeracy, **receive a tailored test report** and **review incorrectly answered questions**. Adaptive tests (or tailored tests) automatically adapt to a student’s test performance and asks questions that try to match a student’s achievement level. In an adaptive test, one student may not complete the same questions as another student. Instead, generally a student who answers more questions correctly/incorrectly will receive harder/easier questions respectively. Adaptive testing allows a test’s difficulty to change to allow a student to demonstrate knowledge and stay engaged with a test. It provides educators with access to more targeted and detailed information on student performance which can then be reported to parents. and it is now open for enrolments. Please keep an eye out in your email and/or speak to your Campus Director for further information. Ensure that your contact information is up to date with us!

North Shore 2025 ONLINE NAPLAN Adaptive Mock Test Available for All Year 3, 5, 7 and 9 Students in WA
